CHEM 425
BIOPHYSICAL CHEMISTRY
GENERAL INFORMATION
Fall 2017

Lectures SLH 3, MWF 8:00 – 8:50 am
Instructor Dr. David Leitner; Office CB 317A
Office Hours M, W 9:00 – 10:00 am; or by appointment or announcement
Textbook R. Chang, Physical Chemistry for the Biosciences

Homework
Mastery of biophysical chemistry requires practice in solving problems. Page 4 lists the assignments and their due dates. There is no substitute for working through the problems on your own or at least making an effort before seeking help. You will be expected to solve similar problems on the exams. Credit for one randomly chosen homework problem will be based on obtaining the correct solution to that problem; credit for all other homework problems will be based on effort towards obtaining a solution.

Web Site
Problem set solution keys, practice exams, exam keys and announcements will appear on the course web site at the CHEM 425 link at http://wolfweb.unr.edu/~dml/chem425/index.html. Please check this website frequently.

Grading Scheme

<table>
<thead>
<tr>
<th>Component</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Three one-hour exams:</td>
<td>20% each</td>
</tr>
<tr>
<td>Final exam:</td>
<td>30%</td>
</tr>
<tr>
<td>Problem sets:</td>
<td>10%</td>
</tr>
</tbody>
</table>

You will need a calculator for the exams. Make-up exams will not be given. If an hour exam is missed and there is a valid excuse, the percentage on the final exam will be substituted for the missing grade. The final exam is comprehensive in nature and is required of all students. Grades will be assigned on the basis of the total points and +/- letter grades will be used.

If you have a disability and will be requiring assistance, please contact me or the Disability Resource Center (Pennington Student Achievement Center, Suite 230) as soon as possible to arrange for appropriate accommodations.
General Outline of Topics
