Course Syllabus

Course: Spring 2005 Math 182, Calculus II
Instructor: Satoko Kurita (Koko if you like)
Course Webpage: http://www.unr.edu/homepage/skurita/m182
e-mail: skurita@unr.edu
Office Hours: M 10am, T 1pm, W 2pm, and Th 1pm, each for 50 minutes, or by appointment
Office Location: AB618
Course Outline:

Chapter 5 Integrals; 4 weeks
Chapter 6 Applications of Integration; 4 weeks
Chapter 8 Infinite Sequences and Series; 4 weeks
Chapter 7 Differential Equations; 2 weeks

Student Evaluation Procedures: Your course grade will be calculated as follows:
quizzes 15%
homework 15%
three midterm exams 15% each;
final exam 25%

Quizzes will be given weekly, usually on Tuesdays unless otherwise announced. Two lowest quiz scores will be dropped, so no makeup quiz will be given. Homework will be collected weekly on Thursdays, and material covered through the preceding day is to be included. Late homework will receive only partial credits. You are encouraged to discuss homework questions with other people, but each student should turn in his/her own solutions to problems. The three midterm exams are tentatively scheduled for Feb 10, Mar 10, and Apr 14. The final exam is scheduled for Friday May 6, noon-2pm (section 8 at noon) or for Monday May 9, 9:45am-11:45am (Section 5 at 11am).

Grading Scale: The following is the general guideline I follow when assigning grades:

<table>
<thead>
<tr>
<th>overall percentage</th>
<th>grade</th>
</tr>
</thead>
<tbody>
<tr>
<td>above 90%</td>
<td>A</td>
</tr>
<tr>
<td>80–89%</td>
<td>B</td>
</tr>
<tr>
<td>70–79%</td>
<td>C</td>
</tr>
<tr>
<td>60–69%</td>
<td>D</td>
</tr>
</tbody>
</table>

Minuses will be only assigned when it helps your grade.

Attendance Policy: There is no requirement to attend classes; however, the student is responsible for any material missed because of his/her absence.

Test Make-up Policy: A makeup test will not be given except in the case of a documented emergency, or an absence caused by a university-sponsored activity. The burden of proof regarding the absence rests with the student, and he/she must see the instructor beforehand to make arrangements for taking a makeup exam if at all possible.

Disability Statement: The Department of Mathematics and Statistics supports providing equal access for students with disabilities. In addition to taking advantage of the Disability Resource Center, I encourage any student with a disability to meet with me at your earliest convenience to ensure timely and appropriate accommodations.
