Important; Read this:

This mandatory assignment is due prior to beginning the first experiment and therefore must be turned in at the start of the 2nd lab meeting. In the interest of the safety of all persons in lab, if you fail to complete and bring the signed assignment with you, you will not be allowed to work in lab.

Assignment: Read UNR Chemistry Laboratory Safety Information for Students and complete the online Safety Questionnaire. Due at the beginning of 2nd lab period.

Instructions:

• Go to http://www.chem.unr.edu/safety/student.html
• Read the Document "Safety Information for Students in Undergraduate Chemistry Laboratory Courses"
• After reading this entire document, click on "Student Safety Questions"
• Print the two pages of questions.
• Answer all questions fully. Sign, date and print your name legibly at the bottom of the second page. Staple and Return both pages to your laboratory teaching assistant at the beginning of the second lab period.

NOTE: Any student who does not complete and turn in this safety assignment at the beginning of the second lab meeting will not be allowed to work in lab and will receive a score of zero for the first experiment. There are no make-up labs. More than 2 missed labs for any reason will result in failure of the course.
