Laboratory

All students registered in Chem 122 for 4 credits have a required lab meeting each week.

- Labs meet beginning the week of **August 31, 2009**.
- You must attend your 1st lab or you may be dropped from class.
- Check the Fall class schedule (online at [ePAWS](http://wolfweb.unr.edu/~smm/chem122fall09)) for the day, time and room where your lab section meets.

- Attendance at all labs is mandatory. A missed lab results in a score of zero.
- **There are no make-up labs.** If you miss more than 2 labs for any reason you will automatically fail the course.

- **Online safety questions are due at the beginning of 2nd lab period.**

To complete the On-line Safety Questions

- Go to [http://www.chem.unr.edu/safety/student.html](http://www.chem.unr.edu/safety/student.html)
- Read the Document "Safety Information for Students in Undergraduate Chemistry Laboratory Courses"
- **After** reading this entire document, click on "Student Safety Questions"
- Print the two pages of questions.
- **Answer** all questions fully. **Sign, date and print your name** legibly at the bottom of the second page. **Staple and Return** both pages to your laboratory teaching assistant at the **beginning** of the second lab period.

Any student who does not complete and turn in this safety assignment at the beginning of the second lab meeting will **not** be allowed to work in lab.
Before your first lab meeting:

✓ You must print the exact schedule for your laboratory day from the lab website.

A link is found on the Chemistry Department home page at

http://www.chem.unr.edu/courses

or the lab website can be accessed directly at

http://wolfweb.unr.edu/~smm/chem122labfall09

✓ Check the lab website at least 24 hours prior to your lab each week!

Important notices and required prelab assignments for experiments will be posted approximately one week in advance.

You are expected to prepare for each laboratory meeting by reading the experiment carefully, completing the Pre-Laboratory assignment and reviewing the relevant sections in your textbook.

In the interest of the safety of all students: if you do not complete a Pre-Laboratory assignment you will not be allowed to work in lab that week and will receive a score of zero for that week’s lab.

✓ No Cell Phone Use (including texting) and no earbud use is allowed in lab.

✓ Approved Safety goggles must be worn as soon as lockers are open and glassware is taken out!! Goggles must be worn continuously throughout the entire lab period.

Failure to follow any safety instructions, including but not limited to compliance with goggle regulations and completion of prelab assignments can result in expulsion from lab.

Chemistry 122 is a Natural Science Core course
